The Retirement Class shares commenced operations on March 1, 2016. The performance attributed to the Retirement Class shares prior to that date is that of the Institutional Class shares. Performance prior to March 1, 2016 has not been adjusted to reflect the lower expenses of Retirement Class shares. During this period, Retirement Class shares would have had returns similar to, but potentially higher than, Institutional Class shares due to the fact that Retirement Class shares represent interests in the same portfolio as Institutional Class shares but are subject to lower expenses. Please refer to the Fund's prospectus for further details.

Keep in mind that the Fund's past performance shown is not a good predictor of how the Fund will perform in the future. The Fund performance assumes the reinvestment of all dividend and capital gain distributions. The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares. The most recent month end performance is available under products at www.harborcapital.com or by calling 800-422-1050.
